“The care at Community Healthcare Network **MAKES ME FEEL GOOD.** I go home happy thanks to my doctor. She **LISTENS TO ME.** That’s the way it should be. **I FEEL BETTER** and I wouldn’t change my care here for nothing.”

JUDITH CANDELARIO, PATIENT

We serve **75,000** individuals.

40% are uninsured

50% receive Medicaid

0% turned away

MESSAGE

CHN was founded in 1981 as a group of family planning clinics. Since then, we've grown to a health system that provides comprehensive health services to over 75,000 individuals a year in 12 Federally Qualified Health Centers in underserved communities. New Yorkers can count on us: **we provide great care and we never turn anyone away.**

We are also a health service innovator. We were:

- **The first** family planning provider in New York State to offer prenatal care and professional social work services
- **The first** in the country to provide a mobile health unit offering full HIV medical services, prenatal care and family planning services
- **One of the first** providers in the nation to use rapid HIV and Hep-C screenings.

Today, CHN continues to lead the way to better health through a patient health literacy initiative and as a NYS-designated Health Home.

A handwritten signature in black ink that reads "Catherine M. Abate".

Catherine Abate
President and CEO

CARE YOU CAN **FEEL GOOD ABOUT.**

CHN is **recognized by leading national organizations** for the quality of care provided and improvements to patient health.

CHN is Joint Commission accredited, a Level 3 Patient-Centered Medical Home and recognized by the National Committee for Quality Assurance for their high-quality and well-managed diabetes care.

CHN is a leading provider of **family planning services** for teens and adults:

36,000 family planning visits a year

91% contraceptive use among teens*

CHN has a 20-year track record in case management.

Case management clients are nine times more likely than their counterparts to receive medical care, are less likely to be hospitalized, have significantly lower health care costs, and live longer.

CHN comprehensive health services include:

17,000 smoking cessation visits a year

10,000 dental visits a year

14,600 mental health visits a year

20,000 HIV tests conducted a year

CHN provides a high level of care to patients with **chronic disease:**

85% OF DIABETES PATIENTS
ROUTINELY RECEIVE THEIR
A1C SCREENING

DECREASED THE PERCENTAGE OF PATIENTS
WITH BLOOD PRESSURE GREATER THAN 130/80
BY **17 percentage points.**

CHN is focused on
continuity of care:

90% OF PATIENTS SCHEDULE
FOLLOW-UP APPOINTMENTS*
