

## Health clinic gets new look

West County residents are invited to stop by and take a look at Occidental's sewer beautification program. The minor but much needed cosmetic surgery is happening to the building that houses the Occidental Area Health Center.

The Occidental Community Coun-

cil authorized the funds paint the outside of the building and to refurbish the sign at the center used by many residents for affordable and quality health care. Coy Brown Painters and Ralph Seifriedt, sign restorer, are doing the work.

THE OCCIDENTAL AREA HEALTH CENTER is the recipient of a beautification project.
