

Mary Szcsey 4-2000

**Ensuring the Quality and
Accessibility of Health Services**

Mary has spent multiple hours over and above her taxing schedule as mother of two school-age children, President of the Occidental Parent Teacher Association, and President of the Redwood Community Health Coalition (RCHC) representing sixteen community-based clinics. She has been able to extend her talents to be the Executive Director of the West County Health Centers representing both Occidental and Russian River Health Clinics. She has actively worked in order to bring quality health care to the many West County residents.

Mary has been a committed advocate for residents who are geographically isolated, non-English speaking, under-insured, and uninsured. She has created health care beyond clinics walls by developing and implementing outreach worker efforts to improve health information and access, including important programs for adolescents regarding peer pressure and abstinence from drugs.
