- Special state insurance programs

### Breast and Cervical Cancer Control Program (BCCCP)

- Free testing to low-income women over the age of 40

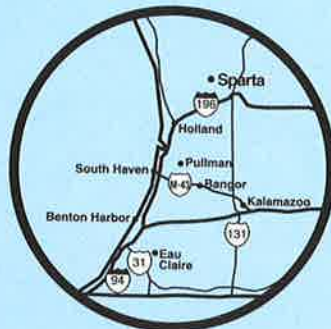

### Outreach Program

- Health workers and nurses who visit migrant housing camps to give out health information and follow up on referrals

## HEALTH CENTERS

InterCare Community Health Network serves six counties in Southwest Michigan – Allegan, Berrien, Cass, Kent, Ottawa and Van Buren. Four of those counties are ranked in the top ten of Michigan's seasonal census of agricultural workers, with Berrien and Van Buren ranking first and second in the state.

## WE BELIEVE

*All people have the right to equal access to quality health care.*

## OUR MISSION

To improve individual health by providing high quality, comprehensive community-based primary health care services.

Our goal is to build healthy communities in the areas we serve. We do this by offering a wide range of health care services for all residents.

Our caregivers will talk with you about your health care needs and teach you ways to stay healthy.

## SERVING THE UNDERSERVED

InterCare Community Health Network is part of America's health care safety network that serves nearly 16 million people across the country each year.

InterCare was formed in 1972 to provide basic health care services in underserved communities. We are located in the heart of Southwest Michigan's fruit and vegetable belt and serve 40,000 residents and migrant farmworkers each year.

InterCare is supported in part with "Community and Migrant Health Center" grant funds from the federal Public Health Service and is a member of the National Association of Community Health Centers (NACHC) and the Michigan Primary Care Association (MPCA).

## SLIDING FEE PROGRAM

InterCare's "sliding fee" program helps patients receive medical and dental services at our health centers at less cost. This is made possible by a federal grant. If qualified for InterCare's sliding fee program, patients pay a flat fee or a percent of their charges. Eligibility for the program is based on family size and income and is open to all who complete a form and provide proof of income.

The federal Medicare program says that community and migrant health centers like InterCare may also offer sliding fees to Medicare patients to help pay for any co-payments and deductibles not covered by Medicare.

InterCare Community Health Network accepts most insurances.
