Day Street Health Center to host family fair

Updated 6:01 p.m., Wednesday, June 6, 2012

The Day Street Community Health Center and Norwalk Smiles are hosting a free "Family Fair" on Saturday from 11 a.m. to 3 p.m. at 49 Day St., Norwalk.

The event will allow folks to get free blood pressure screenings and speak with Access to Care staff about how to access care at the Community Health Center.

Individuals can also learn about health insurance eligibility and how to enroll their children in CHC's school mobile dental program.

Tens of thousands of Connecticut residents do not have insurance, and therefore seek basic medical care in hospital emergency departments. This event is designed to create awareness of what CHC is and does, and how easy it is for people who need care to get it through its services, versus hospital visits.
