

Louisiana's Health Centers: 5 Years of Expansion & Growth

From 2010-2015, Louisiana's Community Health Center network has expanded its reach across the state. Citizens across Louisiana have gained access to affordable, quality primary care services

Louisiana's Community Health Centers have seen unprecedented growth over the last five years. Bipartisan support on a state and national level, have laid the groundwork for health center expansion throughout Louisiana.

National efforts including President George W. Bush's Health Center Growth Initiative (2001), the American Recovery and Reinvestment Act (2009), and the Affordable Care Act (2010) have all contributed to the success of the Health Center Program.

In 2008, Louisiana appropriated over \$41 million in a comprehensive Community Health Center Facility Expansion Initiative (FEI).

2010

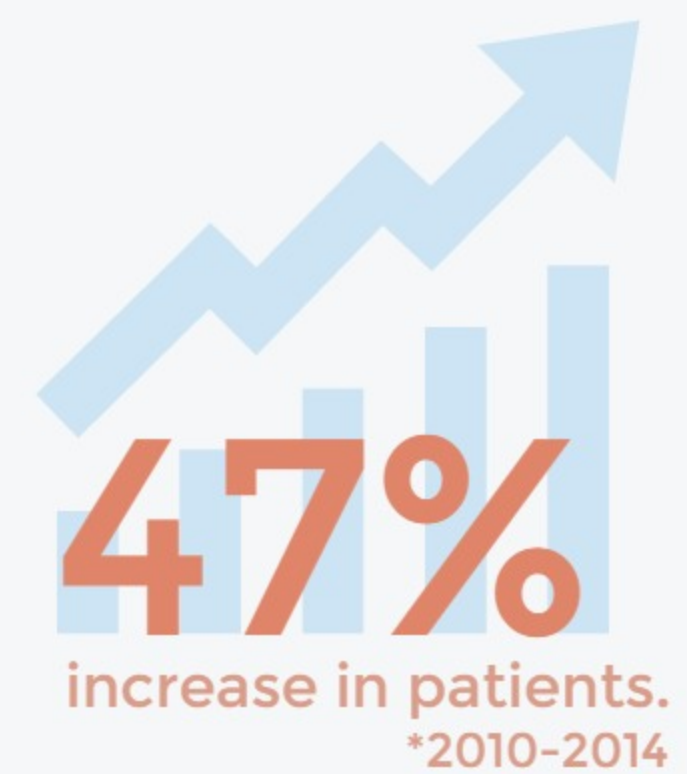

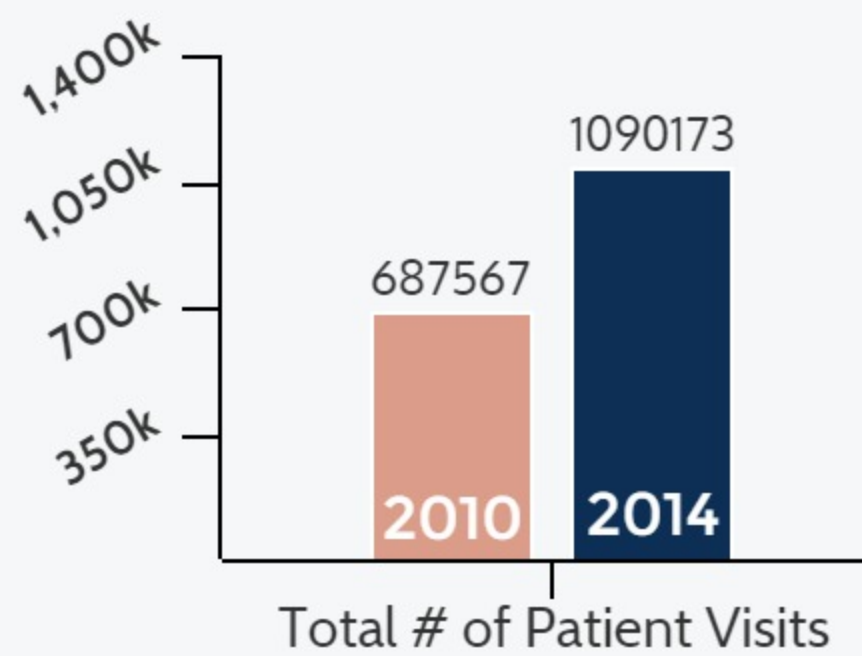

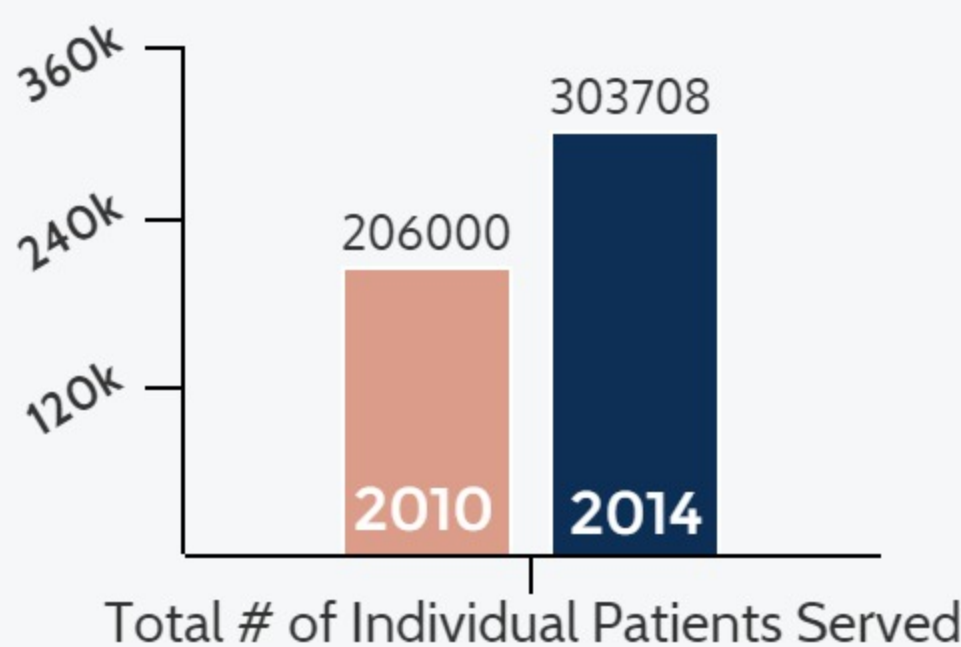

26 FQHC Organizations
82 Healthcare Delivery Sites

2015

34 FQHC Organizations
189 Healthcare Delivery Sites

INCREASE IN PATIENTS SERVED

Louisiana's Community Health Centers provide primary and preventative care to thousands of individuals and families. They play a crucial role in Louisiana's healthcare system, providing affordable health services to low-income working families, the medically underserved and high-risk and vulnerable populations.
