healthcare services for all ages**

Our Mission

To Improve the Health and Well-being of Milwaukee and Surrounding Communities by providing Quality, Patient-Centered, Family-based Health Care, Health Education and Social Services, Free From Linguistic, Cultural and Economic Barriers

About Us

For more than 40 years, Sixteenth Street Community Health Centers has been a leader in providing innovative and compassionate healthcare and other support services to thousands of individuals and families in our community. We provide services regardless of a person's insurance status or ability to pay and over 30,000 individuals annually rely on us as their medical home.

Our patient and client population is extremely diverse, representing many cultures, ethnicities and economic backgrounds.

Our Services

Behavioral Health Services

Psychiatrists, psychologists and family therapists provide individual and group therapy sessions and medical management for adults

and children. Helping clients better manage stress, chronic illness and pain, abuse, neglect issues and depression.

Children's Health Services

A Pediatric practice that emphasizes wellness checks, prevention and vaccinations to support the health and development of infants, children and adolescents.

Chronic Disease Management

Prevention, intervention and support for patients managing Asthma, Diabetes, Obesity and HIV. Offering individual and group education, support groups and outcomes based care management.

Environmental Health

Promoting education, community activities and advocacy for neighborhood development and sustainability. Helping families live in homes and communities, safe from lead poisoning, contaminated waters and other hazards.

Family Practice, Internal Medicine & Urgent Care

Family care treats all family members in primary health care, prevention and chronic care management. Internal medicine supports adult health and wellness, focusing on prevention, diagnosis and treatment. Urgent care provides immediate access to care providers with same day, next day and after hour appointments.

Parenting Resource Center

Promoting positive interactions between parents and children through education and supportive services, including weekly classes and child enrichment activities.

Social Services

Providing crisis intervention, counseling, advocacy, education, health insurance enrollment assistance, referral to community resources, and case management services to our patients, their families and the community at large.

WIC - Women, Infants and Children Program

Ensuring the health and wellbeing of children and families by providing nutrition education, health screenings, breast feeding counseling, food vouchers and other support services.

Women's Health Services

A personalized focus on women's health issues including disease prevention, reproductive health, birth and delivery services, support groups, and case management.

Insurance and Payment Plans

We accept most HMO and private insurance plans in addition to BadgerCare, Medicaid and Medicare. Uninsured patients are able to use a sliding scale payment plan based on family size and household income. Benefit enrollment and financial counseling personnel are available for assistance.
