

Do you offer women's health care? **Yes!**

Care for Her offers health care for women of all ages and stages in English and Spanish. Whether you seek full-scope gynecological care or prenatal and obstetrical care, we've got you covered.

Do you offer primary and specialty care? **Yes!**

We provide comprehensive primary (routine) medical care, and refer patients to specialists when needed. Our care includes physical exams, chronic disease management, immunizations, outpatient HIV testing and care, addiction medicine, pediatric care and more.

Can my family get care without insurance? **Yes!**

MCHC turns no one away. We welcome patients with all public and private insurance, and provide a sliding fee scale for those who qualify. All people deserve health care. We can help.

Insurance or Not... We've Got You Covered

MCHC financial counselors provide a friendly environment, where patients can receive help in signing up for health insurance programs that fit their circumstances.

We do not turn away people who need medical care. We accept Medi-Cal, Medicare, Partnership, and other insurances, and we offer a sliding fee scale for those without insurance.

We also help people find housing and connect with other social services.

Primary Medical Care

Primary care refers to routine medical care. If you need highly specialized care, we can refer you to the appropriate specialist (some of whom work onsite). As your primary care provider, we help you coordinate all your care.

Medical experts provide excellent care. Our board certified pediatrician, family practice doctors, psychiatrists and internists understand the vital role health care plays in helping people reach their potential. Whether you need medical, dental, or behavioral health care, we have what you need.

Counseling, Psychiatry and Psychotherapy

Behavioral health is sometimes referred to as mental health. At MCHC, counseling and psychotherapy are designed to help patients whose health is affected by stress, who have problems maintaining healthy lifestyles, and/or those affected by psychological disorders.

Dentistry

Our dentists provide general dentistry services and offer some specialty programs, including oral health care for pregnant women and patients with HIV.

Care for Her

Our women's health center, Care for Her, provides gynecological services for women of all ages. It also offers prenatal and obstetrical care for those starting or expanding their families.

Women's Health Services Include:

- Routine diagnostic testing (e.g., PAP smears, mammograms, bone density scans)
- Family planning services (e.g., birth control, sexually transmitted disease education)
- Genetic screening and counseling
- Thyroid, diabetes, cholesterol, hormonal, and cancer screenings

Additional Specialties

Chronic Disease Management
HIV/AIDS Care
Pain Management Support

Specialty Clinics:

- Addiction Medicine
- Dermatology
- Gastroenterology
- Nephrology
- Orthopedics
