The West County Health Centers, Russian River Dental Clinic participated in the "Give Kids a Smile Day" as part of "National Children's Dental Access Day" which provided free dental exams and treatment for children from 0-5 and their siblings. This wonderful and important event was co-ordinated by the Sonoma County Oral Health Access Coalition in Partnership with Community Action Partnership of Sonoma County. Priority was given to children from low income families, who are uninsured or on Medi-Cal and who have not seen a dentist in the past year. The Russian River Dental Clinic sees an average of three children a day and recommends your child's first dental visit be at age 3. The West County Health Centers, Russian River Dental Clinic offers a comprehensive dental program including: dental cleaning, root canals, dentures, extractions, crowns and bridges, and white and silver fillings, they are located at 16312 Third Street, Guerneville. Call 869-2933 for an appointment.
