For more information, please call 661-635-3050

2,000 square feet
3 exam rooms and a treatment room

The Health and Wellness Center provides primary care services, including treatment for acute illnesses, health insurance assistance, behavioral health, preventative care and early intervention, physicals and immunizations.

The Health and Wellness Center is an innovative way to provide students with access to health care so they are prepared to do their best in school. Children and families have an array of support based at the school that will lead to improved student learning, and stronger families and neighborhoods.

Clinica is proud to be moving in this innovative direction by expanding our access to care for school-aged children and their families in Fresno.
