Puerto Rico Health Centers' Response to COVID-19

ASOCIACIÓN DE SALUD PRIMARIA DE PUERTO RICO, INC.

Results as of May 15, 2020

The Health Resources and Services Administration (HRSA) is surveying health centers weekly to track their COVID-19 response and their patient and staff impacts. 86% (19) of Puerto Rico health centers responded during this week. Their results present a snapshot of an unprecedented and evolving situation.

Health Centers are Rapidly Adapting to Meet Testing Needs in Their Communities

77.78%

have walk-up or drive-up testing capacity

94.74%

have the ability to test

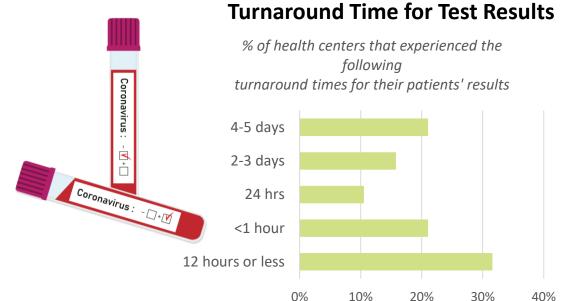

In the past week:

99.37%

of patients tested were racial and/or ethnic minorities

99.80%

of patients tested positive were racial and/or ethnic minorities

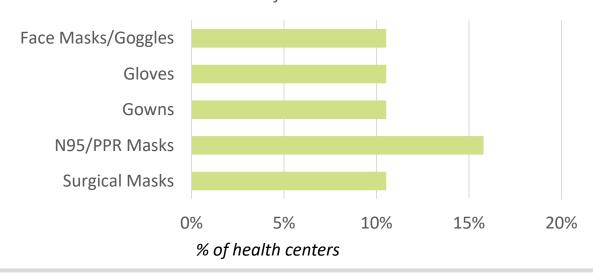

62.89% of visits last week occurred virtually

Health Centers' Access to Personal Protective Equipment (PPE) Improving, But Needs Remain

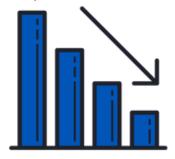

% of health centers that may run out of personal protective equipment (PPE)

items after next week

COVID-19 Results in Extreme Challenges to Health Center Operations, Staffing, and Budgets. This Wee

Health center weekly visits are down to **64.21** %² compared to pre-covid-19

11.58% of health center staff are unable to report work due to COVID-19³

1 health center sites temporarily closed due to COVID-19

Source and Notes: Data presented in this fact sheet come from the Bureau of Primary Health Care, Health Resources and Services Administration, Health Center COVID-19 Survey collected on **May 15, 2020. 19** of federally-funded health centers responded.
