## Puerto Rico Health Centers' Response to COVID-19

ASPPR
ASOCIACIÓN DE SALUD PRIMARIA DE PUERTO RICO, INC.

Results as of May 8, 2020

The Health Resources and Services Administration (HRSA) is surveying health centers weekly to track their COVID-19 response and their patient and staff impacts. 77% (17) of Puerto Rico health centers responded during this week. Their results present a snapshot of an unprecedented and evolving situation.

Health Centers are Rapidly Adapting to Meet Testing Needs in Their Communities

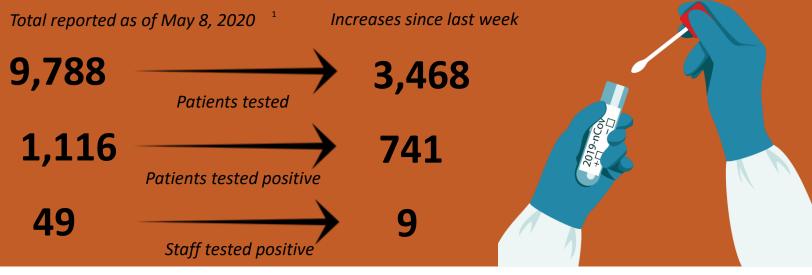

81.25%

have walk-up or drive-up testing capacity

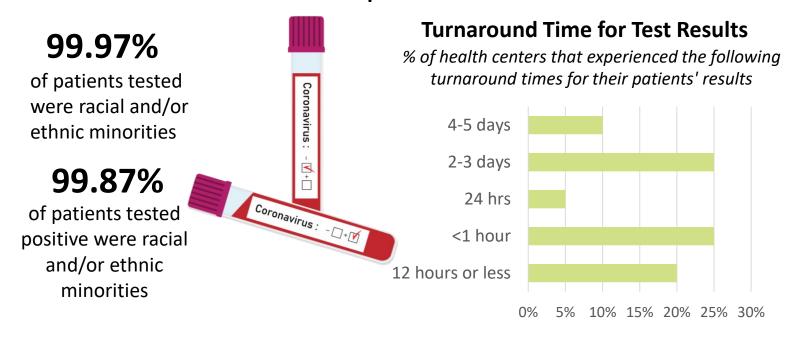

94.12%

have the ability to test

## In the past week:

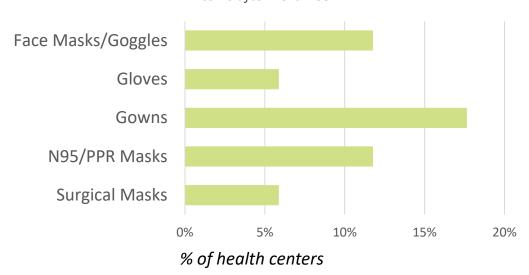

## **70.88%** of visits last week occurred virtually

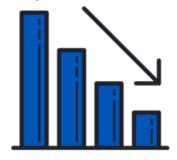

## Health Centers' Access to Personal Protective Equipment (PPE) Improving, But Needs Remain

COVID-19 Results in Extreme Challenges to Health Center Operations, Staffing, and Budgets. This Wee

Health center weekly visits are down to **68.24** %<sup>2</sup> compared to pre-covid-19

**16.18%** of health center staff are unable to report work due to COVID-19<sup>3</sup>

**7** health center sites temporarily closed due to COVID-19

Source and Notes: Data presented in this fact sheet come from the Bureau of Primary Health Care, Health Resources and Services Administration, Health Center COVID-19 Survey collected on **May 8, 2020.17** of federally-funded health centers responded. Survey data are preliminary and do not reflect all health centers. Some duplication of patients tested from week to week may occur. For more information, please visit https://bphc.hrsa.gov/emergency-response/coronavirus-healthcenter-data.

1. Total reported refers to the number of respondents since the survey period starting on April 3, 2020.

<sup>2.</sup> Visits refers to all visits regardless of service type (e.g. medical, dental, behavioral health, etc.), including virtual visits; visits are at **68.24%** of average of weekly visits pre-COVID-19.

<sup>3.</sup> Due to staff exposure, school closure, site/service closure, and other reasons.
